AKSHAY CHAUDHARI

+91 9175624748 | akshaychaudhari12345@gmail.com

Professional Summary

Software Engineer with a positive attitude. Seeking a Software Engineering position that builds products and services which make a positive impact in the industries.

Education

B.E.: **Computer Science Engineering** 2017
Sinhgad College, Pune 68.78

HSC: **Science Stream** 2013
Fergusson College, Pune 65.17

SSC 2011
G.S.C. High School, Bhusawal 93.64

Work History

Oracle Financial Services Software Limited Pune, Maharashtra
Staff Consultant April 2019 – Current
Associate Consultant Sept 2017 – April 2019

Cybercure Technologies Ltd Delhi, NCR
Trainee Intern June 2015–July 2015

Project: KVB Upgrade Kernel Team Jan 2019 – Current

- **Client:** Karur Vysya Bank(KVB)
- **Team member:** 3
- **Technologies:** Java, Hibernate, PL-SQL, JavaScript, XML, JBML.
- **Tools:** Eclipse, PL/SQL Developer, Tortoise SVN, WebLogic Server, IE, BIP Reports, Postman, Soap UI.
- **Roles and responsibilities:**
    - Worked on root-level implementations of the business requirements which involved coding, thorough testing and demonstrations.
    - Involved in the kernel gaps solution framing and carried out the required changes in code.
    - Analyzed regulatory changes to make Oracle's product Flexcube (FCR) compliant.
    - Installed and set up the environment for Flexcube branch server.
    - Maintained the timely delivery for Patch sets to site and production.

Project: KVB Upgrade Onsite Team, Chennai July 2018 – Dec 2018

- **Client:** Karur Vysya Bank(KVB)
- **Team member:** 12
- **Technologies:** Java, Hibernate, SQL, PL-SQL, JavaScript, XML, JBML, GEFU.
- **Tools:** Eclipse, PL/SQL Developer, WebLogic, Putty, Bugzilla, Bug DB, JIRA.
- **Roles and responsibilities:**
    - Analyzed issues, finding out the root cause and provide bug fixes.
    - Tracked the issues raised by client in UAT.
    - Discussed and summarized the exact requirement and communicated it to offshore team.
    - Supported the end of day batches overnight and provided the fixes.
    - Carried out deployments and sanity check tests.

Project: KVB Upgrade Offshore Team Sept 2017 – June 2018

- **Client:** Karur Vysya Bank(KVB)
- **Team member:** 6
- **Technologies:** Java, Hibernate, PL-SQL, JavaScript , JBML, Postman, Soap UI.
- **Tools:** Eclipse, PL/SQL Developer, Tortoise SVN, Oracle WebLogic server
- **Roles and responsibilities:**
    - Developed Screens using JBML, JavaScript, Java, PLSQL and Hibernate.
    - Learned Products Technical and Functional Concepts in Retail Banking.
    - Developed API using Java, PLSQL, Hibernate, XML.
    - Worked on GEFU (Generic External File Upload) framework in Flexcube.

Internship

- **Technologies/Platforms:** BASH, Linux, Windows
- **Tools:** Wireshark Network Scanner, Ettercap, Nmap, Aircrack-ng, etc
- **Roles and responsibilities:**
    - Hands on experience on various data safety majors and techniques.
    - Learnt about Ethical hacking and cyber security.
    - Practiced various defensive and offensive methodologies to test the system, software and network.
    - Practiced brute forcing, data recovery, network scanning. Written automated scripts in BASH to perform desired tasks.
    - Certified Information Security Specialist version 3 (CISSv3).

Skills

- Spring MVC, Hibernate, Servlet, JSP
- Programming Languages: C, C++, Python, Java
- Web Technologies: HTML ,PHP ,CSS ,Bootstrap ,Java Script
- Database: MySQL ,Oracle, MongoDB
- Operating System: Linux, Windows
- Application Servers : Oracle WebLogic server, Apache tomcat

Projects

- **Hostel Management Project** Sept 2015
  As part of T.E. Mini Project (team of four), we have designed and developed the 3-tier infrastructure for keeping the records of Hostel entries and their manipulations using HTML, CSS and JavaScript for front end and MongoDB for Back end.
- **Cyberbullying and Online Grooming Control** Jan 2017
  As part of B.E. Project (team of four), we have designed and developed Facebook Watchdog application using Java, SQL DB, HTML etc. The goal was to monitor the media- images and textual data in the conversations and posts on the platform, to classify them as good and bad, and report the unwanted event to prevent the acts like cyberbullying and online grooming. Here, we implemented basic image processing algorithm and text classification algorithm. Also, we presented the analysis on scanned data in bar graphs and trends.
- **Robocon - National Robotics Contest 2016,2017** June 2014 - Mar 2016
  Worked as a Head of Computer Section in the team of 20 students. Performed the programming of Atmega 8, 32 microcontrollers, Arduino UNO, NANO and Mega Board. Worked on various electronic components and sensors like Proximity, HC-05 Bluetooth, ultrasonic etc.
  Built up two robots, did various tasks like circuit designing, mechanical stability and overall robot working etc.

Extra-Curricular Activities

- Actively participated in Oracle volunteering, including tree care and cleaning events.(2018-19).
- Secured All India Rank 30 in National Level Robotics Contest (ROBOCON –2015).
- Core Member of College's Robotics Club (2014-2017).
